EDUCATION

GLA University, Mathura
Bachelor of Technology (B.Tech) – Computer Science (Cybersecurity)
Expected Graduation: 2028

TECHNICAL SKILLS

Programming Languages: C, Java
Computer Science Concepts: Data Structures, Problem Solving
Cybersecurity & Systems: Networking Basics, Linux Fundamentals
Tools & Technologies: GitHub, VS Code, HTML, CSS, JavaScript

PROJECTS

Health Monitoring Wrist Band

- Designed and developed a wearable health monitoring system using **LM35 temperature sensor** and **pulse sensor**.
- Implemented a system to measure **body temperature and heart rate in real time**.
- Planned integration with **Bluetooth module for smartphone connectivity and health tracking**.

Personal Portfolio Website

- Developed a **responsive portfolio website** using **HTML, CSS, and JavaScript**.
- Showcases technical skills, projects, and professional links (GitHub, LinkedIn).
- Deployed the website using **GitHub Pages** for public access.

ACHIEVEMENTS

- Secured **29th rank in a Codeathon competition** focused on C programming.
- Participated in technical workshops including **Malware Analysis Workshop** organized by the Department of Computer Engineering.

AREAS OF INTEREST

Cybersecurity • Ethical Hacking • Problem Solving • Software Development
